Living on campus adds a measure of convenience to your life and helps familiarize students with the campus. Over 9,000 students live in Student Housing each year, including over 94 percent of incoming freshman students.

All incoming fall quarter freshmen and transfer students are guaranteed housing in Student Housing, provided they meet eligibility requirements and all Student Housing and university deadlines. Freshmen and Transfer students are guaranteed one year of housing. See the Student Housing website for more information about the housing guarantee. All other students should contact Student Housing to inquire about their housing options.

Residence Halls

There are many residence halls at UC Davis, located in three different Student Housing areas: Segundo, Tercero, and Cuarto. In each of the residence hall complexes, students and staff create and maintain an environment conducive to personal growth and educational achievement. Academic and social events are held many times throughout the year. An Academic Advising Center, a Computer Center, convenience store and a dining hall (dining commons) are located in each area.

Rooms are furnished with a bed and mattress, desk and chair, bookcase, chest of drawers, closet or wardrobe, study lamp, and wastebasket and recycling basket for each resident. Furnished common rooms in each residence hall are available for studying, relaxing and hanging out with friends.

Cost is based on room occupancy (single, double, or triple) and meal plan choice. Rates are available at <http://housing.ucdavis.edu/fees>. Each year's rates are subject to approval by the UC Regents, are typically finalized in May, and are effective for the following academic year.

Incoming first-year freshmen students are eligible to live in the residence halls. Some years, as space allows, incoming first-year transfer students may also live in the residence halls. Housing online applications will be available to incoming freshmen stu-

dents after they submit their Statement of Intent to Register (SIR). All other students are encouraged to call Student Housing to inquire about housing availability.

Students who require a special accommodation or consideration, including a medical condition, disability, dietary requirement or other circumstance will be able to submit their request and supporting documentation as a part of the residence hall application process.

Visit the Student Housing website to learn more about the residence halls and how and when to apply for housing. Call or email Student Housing with any questions.

Student Housing Apartments (SHA)—Transfer Student Communities

Student Housing created a special community for transfer students called "Student Housing Apartments," or SHA. SHA is comprised of multiple apartment complexes both on and very close to campus. SHA residents have access to academic support and tutoring, as well as access to on-campus computer centers and optional dining plans.

HEALTH AND COUNSELING SERVICES

Student Health and Counseling Services (SHCS)

Services are provided at two primary locations: Student Health and Wellness Center and 219 North Hall.
Make an appointment: 530-752-2349
General information: 530-752-2300
<http://shcs.ucdavis.edu/>

What medical services are available on campus if I get sick or injured?

Student Health and Counseling Services (SHCS) provides wellness resources and cost-sensitive medical care that is tailored to the unique and diverse needs of students at UC Davis. All registered students are assigned a primary care provider (PCP) who will coordinate their wellness care and treatment needs. SHCS staff include physicians, nurse practitioners, registered nurses, physical therapists, dietitians and health educators. Pharmacy, lab, and x-ray services are also available. Medical care is provided at the Student Health and Wellness Center, conveniently located on the west side of campus. Services are available to all registered students regardless of insurance coverage. When the Student Health and Wellness Center is closed, students can speak with an after-hours advice nurse at 530-752-2349.

What mental health services are available for students?

SHCS offers a variety of resources to help students reach academic and personal goals while at UC Davis. SHCS mental health providers are a multicultural and educationally diverse group of experienced mental health professionals, doctoral interns and postdoctoral residents. They provide short-term counseling at no cost to registered UC Davis students. Counseling Services, including initial consultations, individual and group therapy, and workshops are provided in both 219 North Hall and the Student Health and Wellness Center. When Counseling Services is closed, students may call 530-752-2349 and follow the prompts to speak with a mental health help-line provider.

What if I have a hold on my registration because I have to submit my immunization status for Hepatitis B?

The state requires that all first-time enrollees age 18 or younger provide a statement of immunization status for the Hepatitis B virus. Students who have not completed this requirement may have a hold placed on their registration, which may affect their ability to register for classes. Students can submit their information or request more time to complete this requirement by using the Hepatitis B Immunity Statement through the MyAdmissions website.

Are there charges for medical services?

Primary care, urgent care and specialty medical services (including psychiatry) have a small fee. Counseling services, advice nurse services and most health promotion resources are free. In general, a primary care visit costs \$15 and both urgent care and specialty care visits cost \$20, with additional fees for treatment supplies and medications as needed. All SHCS charges are billed directly to your student account each month. The amount can be viewed and paid using MyBill; however, detailed information about your visit is not viewable through MyBill. Detailed information can be found by logging into Health-e-Messaging, which is a secure system accessible only through your student login. More information about services, costs and billing is available on the SHCS website.

Student Health Insurance**What is the UC Student Health Insurance Plan (UC SHIP) and how do I enroll?**

The University of California (UC) requires that all students have health insurance. To ensure this requirement is met, all UC students are automatically enrolled in UC SHIP and fees for coverage are charged to your student account each term. UC SHIP includes medical, dental and vision benefits. Students with comparable health insurance can apply for a UC SHIP waiver. More information is available at <http://shcs.ucdavis.edu/insurance>.

I already have a comparable health insurance plan. How do I waive out of UC SHIP?

Students may apply for a student health insurance waiver at the SHCS website or may visit the SHCS Insurance Office at the Student Health and Wellness Center.

Do I need to submit a student health insurance waiver application each quarter?

No, student health insurance must be waived at the beginning of each academic year; however, an approved waiver is good for the duration of that academic year. Students who have waived UC SHIP and later need health insurance coverage may visit the SHCS Insurance Office to enroll at any time.

Are Student Health and Counseling Services fees different if I am not enrolled in UC SHIP?

No, all students have the same level of access to SHCS medical services and pay the same rates for care regardless of insurance coverage or carrier. However, when SHCS provides Affordable Care Act approved prevention and wellness services (immunizations, screening, contraception) to UC SHIP enrollees, UC SHIP covers SHCS fees. Most important, UC SHIP covers healthcare services not available at SHCS and only available off campus; e.g., emergency room visits, surgical care, MRIs, subspecialist care. More information is available on the SHCS website.

Disclosures from Student Records. Students have the right to review records that relate to themselves in their capacity as students and to request corrections of records believed to be inaccurate. Most disclosures from student records to outside parties require prior consent from the student.

Under the Family Educational Rights and Privacy Act of 1974 and University and campus policies, UC Davis students have the following rights:

- A.** To review their own student records within 45 days after the student submits a written request for access to the University Registrar or other department in possession of the records. That office will make arrangements for access and notify the student when and where the records may be reviewed. If the records requested are in a different office, the request will be redirected and the student notified. The campus maintains several types of student records in various locations. Questions about how to obtain records should be referred to the Office of Student Support and Judicial Affairs at 530-752-1128.
- B.** To request amendment of their own student records if they believe the records are inaccurate or misleading, students should submit a written request to the office that maintains the records specifying the portion of the record the student wants changed and why it is believed to be inaccurate or misleading. That office has 45 days to determine whether the record should be changed and notify the student of the decision. If a student wishes to contest this decision, the student should contact the Office of Student Support and Judicial Affairs.
- C.** To restrict the disclosure of personally identifiable information contained in student records, except when law and policy permit disclosure without consent. Examples of circumstances in which the student’s consent is not required for disclosure of student records include the following:
 - Disclosure of “directory” or “public” information including the student’s name; local and/or permanent address(es), email addresses and telephone number(s); dates of atten-

dance; major field(s) of study [major, minor, concentration, specialization, and similar designations]; grade level; enrollment status (undergraduate/graduate, full time or part time, number of enrolled course units) degrees and honors received; most recent previous educational institution attended; participation in officially recognized activities, including Intercollegiate Athletics (ICA), and the name, weight and height of participants on ICA teams.

To prevent disclosure of their email address, students must follow instructions at <https://computingaccounts.ucdavis.edu/>, and select the *Change your directory information* option.

If all information is designated confidential, UC Davis cannot respond to requests for verification of student status or degrees, make public any honors, or include the student's name in the commencement program without the student's specific written consent.
- Disclosure to campus officials (for example faculty, staff, student employees, or those under contract with the University) having a legitimate educational interest in the records. Legitimate educational interest means the information is relevant and necessary to a task or determination that is (a) an employment responsibility or an assigned subject matter for the inquirer and/or related to (b) the inquirer's participation in the student's education; (c) the discipline of a student; or (d) providing a service or benefit related to a student or student's family (such as health care, counseling, job placement, or financial aid).
- Disclosure of appropriate student records, including academic records, disciplinary records, and other student records, to other educational institutions in which a student seeks or intends to enroll, or is currently enrolled, so long as the disclosure is for purposes related to the student's enrollment or transfer

Students are mandated to disclose their social security number to UC Davis. In compliance with state law, Social security numbers are confidential and are not used as student identifiers.

Release of Registration Material and Grades. In compliance with student privacy rights under federal and state law and University policy, the Office of the University Registrar may not release a student's grades, registration material, and/or identification card to anyone other than the student without specific written authorization signed by the student. The person to whom the information, material, or card is released must be designated by name and must present proof of identity.
