

ELECTRICAL ENGINEERING, BACHELOR OF SCIENCE

College of Engineering

The Electrical & Computer Engineering Undergraduate Programs

The department administers two undergraduate curricula in the College of Engineering: (1) the Electrical Engineering curriculum and (2) the Computer Engineering curriculum.

Integrated Degree Program (IDP)

The IDP leads to both the Bachelor of Science and the Master of Science degrees. The program provides a student the opportunity to obtain superior breadth and depth of technical material. The IDP program in the Department of Electrical & Computer Engineering is available only to UC Davis undergraduates with strong academic records enrolled in the Electrical Engineering, Computer Engineering, Electronic Materials Engineering or Applied Physics curricula. Applicants in their junior year must apply for the IDP by March 31. For more information on IDP, see Electrical & Computer Engineering (<http://www.ece.ucdavis.edu>).

Mission

Under its land grant status, the University of California has a mission to provide the state with the trained workforce it needs and to advance knowledge and research in directions that contribute to the general welfare of the state and the nation. The Department of Electrical & Computer Engineering contributes to the mission of the University in three ways. First, its undergraduate and graduate education programs seek to provide students with an understanding of the fundamental principles of electrical and computer engineering, the skills needed to solve the complex technological problems of modern society and the ability to continue to learn and develop throughout their careers. Second, through its research programs, the department contributes to the development and progress of electronics, communications, and computer technology. Finally, the department helps to transfer research results to industry through publication, public service and professional activities.

Objectives

Teaching—To provide undergraduate students with sufficient breadth to allow them to participate in teams, continue their own education after graduation and select a focus area intelligently; to provide undergraduate students with sufficient depth in a narrower discipline to allow them to develop the ability to solve complex engineering problems; to educate the students in the graduate program to be leaders in industry or to do meaningful research in industry, government or academia.

Research—To develop and maintain research programs that produce useful technological advances while simultaneously training the next generation of researchers and leaders; to update and/or shift the foci of these programs frequently in response to the needs of our constituency and the nation; to provide a stimulating environment that encourages our graduate students to develop their abilities as far as possible.

Electrical Engineering Undergraduate Program

The Electrical Engineering program is accredited by the Engineering Accreditation Commission of ABET (<http://www.abet.org>).

Electrical engineering involves the design, analysis, and effective use of electrical systems including electronic computers. Electrical systems and computers play a central role in nearly all aspects of modern life, including communication, medicine, education, environmental protection, space exploration, defense, and home entertainment.

Students who complete the Electrical Engineering curriculum will obtain a Bachelor of Science in Electrical Engineering, one of the engineering degrees recognized in all fifty states as eligible for registration as a Professional Engineer.

Objectives

The Electrical & Computer Engineering program educational objectives have been developed to address the needs of our constituencies. The objectives of the Electrical & Computer Engineering programs are as follow:

- Graduates create value for their employers, demonstrating knowledge and initiative and making beneficial contributions beyond the workplace. This can also result in patents, awards, publications and presentations.
- Graduates grow their capabilities through advanced education and professional development.
- Graduates provide leadership and be proactive in their profession and/or communities.

Students are encouraged to adhere carefully to all prerequisite requirements. The instructor is authorized to drop students from a course for which stated prerequisites have not been completed.

The major requirements below are in addition to meeting University Degree Requirements (<https://catalog.ucdavis.edu/undergraduate-education/university-degree-requirements/>) & College Degree Requirements (<https://catalog.ucdavis.edu/undergraduate-education/college-degree-requirements/>); unless otherwise noted. The minimum number of units required for the Electrical Engineering Bachelor of Science is 147.

Areas of Specialization

For updated recommended courses, see Electrical & Computer Engineering (<https://www.ece.ucdavis.edu/undergraduate/majors-and-minor/>).

Physical Electronics

Solid-state devices, circuits and fabrication and the theory courses supporting those subjects.

Code	Title	Units
Recommended Elective Courses		
<i>Core Electives</i>		
EEC 130B	Introductory Electromagnetics II	4
EEC 140B	Principles of Device Physics II	4
<i>Design Laboratory Electives</i>		
EEC 118 or EEC 132A	Digital Integrated Circuits RF & Microwaves in Wireless Communication	4-5
EEC 132B or EEC 135	RF & Microwaves in Wireless Communication Optoelectronics for High-Speed Data Networking & Computing Systems	4-5
Select remaining upper division design electives from:		

EEC 110B	Electronic Circuits II	4
EEC 146A	Integrated Circuits Fabrication	4
EEC 146B	Advanced Integrated Circuits Fabrication	3
<i>Technical Electives</i>		
EEC 112	Communication Electronics	4
EEC 180	Digital Systems II	5

Electromagnetics

Microwave circuits and systems, and fiber optical systems.

Code	Title	Units
Recommended Elective Courses		
<i>Core Electives</i>		
EEC 130B	Introductory Electromagnetics II	4
EEC 140B	Principles of Device Physics II	4
<i>Design Laboratory Electives</i>		
EEC 132A	RF & Microwaves in Wireless Communication	5
EEC 132B	RF & Microwaves in Wireless Communication	5
EEC 134A & EEC 134B	RF/Microwave Systems Design and RF/Microwave Systems Design	6
Select remaining upper division design electives from:		
EEC 110B	Electronic Circuits II	4
EEC 132C	RF & Microwaves in Wireless Communications	5
EEC 133	Electromagnetic Radiation & Antenna Analysis	4
<i>Technical Electives</i>		
EEC 112	Communication Electronics	4

Analog Electronics

Transistor- and system-level analog circuit design.

Code	Title	Units
Recommended Elective Courses		
<i>Core Electives</i>		
EEC 110B	Electronic Circuits II	4
EEC 157A or EEC 157AV	Control Systems	4
EEC 160	Signal Analysis & Communications	4
<i>Design Laboratory Electives</i>		
At least two from:		
EEC 112	Communication Electronics	4
EEC 113	Power Electronic Circuits	4
EEC 136A & EEC 136B	Electronic Design Project and Electronic Design Project	6
EEC 165	Statistical & Digital Communication	4
EEC 195A & EEC 195B	Autonomous Vehicle Design Project and Autonomous Vehicle Design Project	6
Select remaining upper division design electives from:		
EEC 116	VLSI Design	4
EEC 118	Digital Integrated Circuits	4
EEC 132A	RF & Microwaves in Wireless Communication	5

EEC 132B	RF & Microwaves in Wireless Communication	5
EEC 132C	RF & Microwaves in Wireless Communications	5
EEC 140B	Principles of Device Physics II	4
EEC 157B or EEC 157BY	Control Systems II	4
EEC 160	Signal Analysis & Communications	4
EEC 210	MOS Analog Circuit Design	4
<i>Technical Electives</i>		
Select from:		
EEC 130B	Introductory Electromagnetics II	4
EEC 146A	Integrated Circuits Fabrication	4

Digital Electronics

Transistor- and system-level digital circuit design.

Code	Title	Units
Recommended Elective Courses		
<i>Core Electives</i>		
EEC 110B	Electronic Circuits II	4
EEC 140B	Principles of Device Physics II	4
<i>Design Laboratory Electives</i>		
EEC 118 & EEC 180 or EEC 172 or EEC 183 or EEC 181A & EEC 181B	Digital Integrated Circuits and Digital Systems II Embedded Systems Testing & Verification of Digital Systems Digital Systems Design Project and Digital Systems Design Project	9
Select remaining upper division design electives from:		
EEC 116	VLSI Design	4
EEC 170	Introduction to Computer Architecture	4
EEC 171	Parallel Computer Architecture	4
<i>Technical Electives</i>		
Select from:		
EEC 130B & EEC 112 or EEC 146A or EEC 157A or EEC 157AV or EEC 160 or EEC 210	Introductory Electromagnetics II and Communication Electronics Integrated Circuits Fabrication Control Systems Control Systems Signal Analysis & Communications MOS Analog Circuit Design	8

Communication Controls & Signal Processing

Digital communication, robotics, classical controls and communication, wireless & cellular digital communication systems, signal & image processing, and computer vision.

Code	Title	Units
Recommended Elective Courses		
<i>Core Electives</i>		
EEC 180	Digital Systems II	5
<i>Design Laboratory Electives</i>		
EEC 157A or EEC 157AV	Control Systems	8

&		
EEC 157B	Control Systems II	
or EEC 157BY	Control Systems II	
or EEC 165	Statistical & Digital Communication	
Select remaining upper division design electives from:		
EEC 160	Signal Analysis & Communications	4
<i>Technical Electives</i>		
Select from:		
EEC 112	Communication Electronics	4
EEC 195A	Autonomous Vehicle Design Project	6
& EEC 195B	and Autonomous Vehicle Design Project	

Requirements

Code	Title	Units
Lower Division Required Courses		
CMN 001	Introduction to Public Speaking	4
or ENG 003	Introduction to Engineering Design	
or ENG 003Y	Introduction to Engineering Design	
<i>Mathematics</i>		
MAT 021A	Calculus	4
MAT 021B	Calculus	4
MAT 021C	Calculus	4
MAT 021D	Vector Analysis	4
MAT 022A	Linear Algebra	3
MAT 022B	Differential Equations	3
<i>Physics</i>		
PHY 009A	Classical Physics	5
PHY 009B	Classical Physics	5
PHY 009C	Classical Physics	5
PHY 009D	Modern Physics	4
<i>Chemistry</i>		
CHE 002A	General Chemistry	5
<i>Engineering</i>		
ENG 006	Engineering Problem Solving	4
ENG 017	Circuits I	4
or ENG 017V	Circuits I	
<i>Electrical & Computer Engineering</i>		
EEC 001	Introduction to Electrical & Computer Engineering	1
EEC 007	Introduction to Programming & Microcontrollers	4
EEC 010	Introduction to Digital & Analog Systems ¹	4
Transfer and change of major students in their junior year will substitute four additional units of upper division electives.		
EEC 018	Digital Systems I	5
Lower Division Composition/Writing; choose one; a grade of a C- or better is required:		4
COM 001	Major Works of the Ancient World	
COM 002	Major Works of the Medieval & Early Modern World	
COM 003	Major Works of the Modern World	
COM 004	Major Works of the Contemporary World	
ENL 003	Introduction to Literature	

or ENL 003V	Introduction to Literature	
NAS 005	Introduction to Native American Literature	
UWP 001	Introduction to Academic Literacies (Recommended)	
or UWP 001V	Introduction to Academic Literacies: Online	
or UWP 001Y	Introduction to Academic Literacies	
Lower Division Required Courses Subtotal		76
Upper Division Required Courses		
<i>Electrical & Computer Engineering</i>		
Choose 26 units:		26
EEC 100	Circuits II	
EEC 110A	Electronic Circuits I	
EEC 130A	Electromagnetics I	
EEC 140A	Principles of Device Physics I	
or EEC 140AV	Principles of Device Physics I	
EEC 150	Introduction to Signals & Systems	
EEC 161	Applied Probability for Electrical & Computer Engineers	
EEC 196	Issues in Engineering Design	
Choose one:		3-4
ENG/PHY 160	Environmental Physics & Society	
ENG 190	Professional Responsibilities of Engineers	
<i>Upper Division Electives</i>		
Choose at least eight courses for a minimum of 32 units:		32
After completion of the upper division elective requirement (at least 8 courses, 2 core, 2 with labs, 1 project) any units in excess of 32 will count toward the Technical Elective requirement.		
Two Core Electives (p. 4)		
Design Laboratory Electives (p. 4)		
<i>Technical Electives</i>		
Choose 9 units (p. 4)		9
<i>Upper Division Composition Requirement</i>		
Choose one; a grade of C- or better is required:		0-4
UWP 101	Advanced Composition	
or UWP 101V	Advanced Composition	
or UWP 101Y	Advanced Composition	
UWP 102A	Writing in the Disciplines: Special Topics	
UWP 102B	Writing in the Disciplines: Biology	
UWP 102C	Writing in the Disciplines: History	
UWP 102D	Writing in the Disciplines: International Relations	
UWP 102E	Writing in the Disciplines: Engineering	
UWP 102F	Writing in the Disciplines: Food Science & Technology	
UWP 102G	Writing in the Disciplines: Environmental Writing	
UWP 102H	Writing in the Disciplines: Human Development & Psychology	
UWP 102I	Writing in the Disciplines: Ethnic Studies	
UWP 102J	Writing in the Disciplines: Fine Arts	
UWP 102K	Writing in the Disciplines: Sociology	
UWP 102L	Writing in the Disciplines: Film Studies	
UWP 104A	Writing in the Professions: Business Writing	

or UWP 104AV	Writing in the Professions: Business Writing
or UWP 104AY	Writing in the Professions: Business Writing
UWP 104B	Writing in the Professions: Law
UWP 104C	Writing in the Professions: Journalism
UWP 104D	Writing in the Professions: Elementary & Secondary Education
UWP 104E	Writing in the Professions: Science
UWP 104F	Writing in the Professions: Health
or UWP 104FV	Writing in the Professions: Health
or UWP 104FY	Writing in the Professions: Health
UWP 104I	Writing in the Professions: Internships
UWP 104J	Writing in the Professions: Writing for Social Justice
UWP 104T	Writing in the Professions: Technical Writing
Passing the Upper Division Composition Exam.	
Upper Division Required Courses Subtotal	70-75
Total Units	146-151

1

Transfer and change of major students who do not take EEC 010 will substitute 4 additional units of upper-division electives.

Two Core Electives

Code	Title	Units
A maximum of one course appearing on both the Core Elective list and the Design Laboratory Elective list may be counted in both categories.		
EEC 110B	Electronic Circuits II	4
EEC 130B	Introductory Electromagnetics II	4
EEC 140B	Principles of Device Physics II	4
EEC 170	Introduction to Computer Architecture	4
EEC 180	Digital Systems II	5
Only one of the following may be used:		
EEC 151	Digital Signals & Systems	
EEC 157A	Control Systems	
or EEC 157AV	Control Systems	
EEC 160	Signal Analysis & Communications	

Design Laboratory Electives

Code	Title	Units
A maximum of one course appearing on both the Core Elective list and the Design Laboratory Elective list may be counted in both categories.		
Choose at least two Design electives with lab:		
EEC 110B	Electronic Circuits II	
EEC 112	Communication Electronics	
EEC 116	VLSI Design	
EEC 118	Digital Integrated Circuits	
EEC 132A	RF & Microwaves in Wireless Communication	
EEC 132B	RF & Microwaves in Wireless Communication	
EEC 132C	RF & Microwaves in Wireless Communications	

EEC 135	Optoelectronics for High-Speed Data Networking & Computing Systems
EEC 146A	Integrated Circuits Fabrication
EEC 146B	Advanced Integrated Circuits Fabrication
EEC 152	Digital Signal Processing
EEC 157B	Control Systems II
or EEC 157BY	Control Systems II
EEC 165	Statistical & Digital Communication
EEC 172	Embedded Systems
EEC 180	Digital Systems II
EEC 183	Testing & Verification of Digital Systems

Choose at least one Design Project course:

All Design Project courses are also considered Design Laboratory electives and may be counted in both categories simultaneously. Both A and B need to be taken to receive credit for the Design Project.		
EEC 119A	Integrated Circuit Design Project	
EEC 119B	Integrated Circuit Design Project	
EEC 134A	RF/Microwave Systems Design	
EEC 134B	RF/Microwave Systems Design	
EEC 136A	Electronic Design Project	
EEC 136B	Electronic Design Project	
EEC 174AY	Applied Machine Learning	3
EEC 174BY	Applied Machine Learning Senior Design Projects	3
EEC 175A	Internet of Things	3
EEC 175B	Internet of Things Senior Design Project	3
EEC 181A	Digital Systems Design Project	
EEC 181B	Digital Systems Design Project	
EEC 193A	Senior Design Project	
EEC 193B	Senior Design Project	
EEC 195A	Autonomous Vehicle Design Project	
EEC 195B	Autonomous Vehicle Design Project	

The remaining electives may be any letter-graded upper division Electrical & Computer Engineering course not used to satisfy another major requirement or the following ECS courses:

ECS 036B	Software Development & Object-Oriented Programming in C++
ECS 150	Operating Systems & System Programming
ECS 152B	Computer Networks
ECS 163	Information Interfaces
ECS 175	Computer Graphics
ECS 177	Scientific Visualization
ECS 178	Geometric Modeling

Technical Electives

Code	Title	Units
Technical Electives		
After completion of the upper division elective requirement (at least 8 courses, 2 core, 2 with labs, 1 project) any units in excess of 32 will count toward the technical elective requirement. ⁵		
CHE 002B	General Chemistry ¹	5
ENG 035	Statics ²	4

A maximum of 6 units for any combination of engineering courses numbered 190C, 192, 198, and 199 may be used.

Mathematics

Any upper division course ³

Physics

Any upper division PHY course, except:

PHY/ENG 160 Environmental Physics & Society
(restricted to 1 unit of technical elective)

PHY 195 Senior Thesis

PHY 197T Tutoring in Physics & Astronomy

Statistics

Any upper division course ⁴

BIS 101	Genes & Gene Expression	4
BIS 101D	Genes & Gene Expression Discussion	1
BIS 102	Structure & Function of Biomolecules	3
BIS 103	Bioenergetics & Metabolism	3
BIS 104	Cell Biology	3
BIS 122	Population Biology & Ecology	3
BIS 122P	Population Biology & Ecology/Advanced Laboratory Topics	5
ECN 100A	Intermediate Micro Theory: Consumer & Producer Theory	4
ECN 100B	Intermediate Micro Theory: Imperfect Competition & Market Failure	4
ECN 101	Intermediate Macro Theory	4
ECN 102	Analysis of Economic Data	4
ECN 103	Economics of Uncertainty & Information	4
ECN 122	Theory of Games & Strategic Behavior	4
ECN 140	Econometrics	4
MGT 011A	Elementary Accounting	4
MGT 011B	Elementary Accounting	4
MGT 100	Introduction to Financial Accounting	3
MGT 120	Managing & Using Information Technology	4
MGT 140	Marketing for the Technology-Based Enterprise	4
MGT 150	Technology Management	4
MGT 160	Financing New Business Ventures	4
MGT 170	Management Accounting & Control	4
MGT 180	Supply Chain Planning & Management	4

1

CHE 002C and any upper division course; except CHE 195, CHE 197.

2

ENG 045, and any upper division engineering course not used in satisfaction of core degree requirements, excluding ENG 100, ENG 160 (restricted to 1 unit of technical elective; same as PHY 160.), PHY 190 (restricted to 1 unit of technical elective), PHY 198, ECS 132, ECS 154A, ECS 154B, & ECS 188 (ECS 154A ECS 154B courses may be used by EEEL majors who did not take EEC 170).

3

Except MAT 135A & MAT 197TC.

4

Except STA 100, STA 102 Discontinued, STA 103, STA 104, STA 106, STA 108, STA 120 Discontinued, STA 130A.

5

Transfers and change of majors take 1 additional Technical elective unit in place of EEC 001.
