ATMOSPHERIC SCIENCE, MINOR

College of Agricultural & Environmental Sciences

Faculty [link](http://lawr.ucdavis.edu/people/faculty/atmospheric-science/)

Minor Program

The minor in Atmospheric Science provides a broad treatment of weather and climate, with the option to focus on such topics as climate change, meteorological instrumentation, and satellite remote sensing. Students undertaking the minor should have completed minimum preparatory course work in calculus and physics (MAT 016A, MAT 016B, and PHY 007A). Some upper division courses in Atmospheric Science have additional prerequisites in calculus and physics (MAT 021A, MAT 021B, MAT 021C, MAT 021D, MAT 022A, and MAT 022B, and PHY 009A, PHY 009B, PHY 009C, and PHY 009D).
