

MOLECULAR, CELLULAR, & INTEGRATIVE PHYSIOLOGY, DOCTOR OF PHILOSOPHY

College of Biological Sciences

Graduate Study

The Graduate Group in Molecular, Cellular, & Integrative Physiology offers programs of study and research leading to M.S. and Ph.D. degrees and participates in joint Ph.D./M.D. and Ph.D./D.V.M. programs. The programs emphasize broad training in the fundamental principles of cellular, molecular, and integrative physiology.
