NUTRITION & FOOD, MINOR

College of Agricultural & Environmental Sciences

The Department of Nutrition offers three minor programs open to students majoring in other disciplines who wish to complement their study programs with a concentration in the area of food and nutrition.

Graduate Study

Programs of study leading to M.S. and Ph.D. degrees are available in Nutritional Biology Graduate Group. For information on graduate study, contact the Nutritional Biology Graduate Group.

Note: If the student’s major program requires the same course in biochemistry and physiology, only one of the courses may duplicate credit toward the minor. The program lists replacement courses below which can be used to fulfill the minimum unit requirement.

Preparation

Plan in advance to include the required course prerequisites.

Nutrition

- NUT 111AY Introduction to Nutrition & Metabolism 3 units
- NUT 111B Recommendations & Standards for Human Nutrition 2 units
- NUT 120AN Nutritional Anthropology 4 units
  - or NUT 120BN Nutritional Geography

Food Science & Technology

- FST 100A Food Chemistry 4 units
- FST 100B Food Properties 4 units

Neurobiology, Physiology, & Behavior

- NPB 101 Systemic Physiology 5 units

Replacement Courses

See note above

- NUT 114 Developmental Nutrition
- NUT 116A Clinical Nutrition
- NUT 116B Clinical Nutrition
- NUT 116AL Clinical Nutrition Practicum
- NUT 116BL Clinical Nutrition Practicum

Total Units 22
