PSYCHOLOGY, MINOR

College of Letters & Science

The Minor Program

The psychology program at UC Davis is broad and includes students and faculty with a variety of interests. The department has developed around five core areas of psychology:

Perception, Cognition, & Cognitive Neuroscience (PCCN) involves the study of awareness and thought, and includes such topics as perception, learning, memory, language and cognition.

Biological Psychology covers a broad spectrum of topics including evolutionary, neurobiological, and molecular mechanisms of behavior.

Social-Personality Psychology involves the study of the individual in their social environment and includes such topics as personality & individual differences, emotions, stereotyping & prejudice, intergroup relations, the psychology of religion and psychological health & dysfunction.

Developmental Psychology involves the study of changes in behavioral, cognitive, emotional, and social abilities that occur throughout the lifespan. Typical and atypical development is examined using a variety of methods including behavioral, neuroimaging, and physiological assessments.

Quantitative Psychology involves the study of linear & nonlinear models, psychometrics, mixed-effects models, and dynamic models, including experimental design, analysis of variance, regression, multivariate analysis, latent growth models, time series models, and factor analytic models.

Recommended for All Majors

Students who plan to do graduate work in any area of psychology are strongly encouraged to gain experience through research and internship activities.

Minor Advisor

Staff advisors are located in Young Hall; psychadvising@ucdavis.edu; 530-752-5104. For more information on how to make an appointment or join Drop-In Advising hours, please see Yellow Cluster Undergraduate Advising Center (https://yellowcluster.ucdavis.edu/advising/undergraduate/).

Graduate Study

The Department offers programs of study and research leading to the Ph.D. degree in psychology. Detailed information regarding graduate study may be obtained on our website (https://psychology.ucdavis.edu/graduate/).

One course from each of the following four groups:

Core Group A: Perception, Cognition, & Cognitive Neuroscience

Choose 4 units:

- PSC 100 Introduction to Cognitive Psychology

Core Group B: Psychobiology

Choose 3-4 units:

- PSC 101 Introduction to Biological Psychology
- PSC 113 Developmental Psychobiology
- PSC 121 Physiological Psychology
- PSC 122/NPB 150 Advanced Animal Behavior
- PSC 123/NPB 152 Hormones & Behavior (3 units)
- PSC/NPB 124 Comparative Neuroanatomy (3 units)
- PSC 125 Behavioral Epigenetics
- PSC 126 Health Psychology
- PSC 137 Neurobiology of Learning & Memory
- PSC 159 Gender & Human Reproduction

Core Group C: Social/Personality

Choose 4 units:

- PSC 151 Social Psychology
- PSC 152 Social Cognition
- PSC 154 Psychology of Emotion
- PSC 158 Sexual Orientation & Prejudice
- PSC 161 Psychology of the Self
- PSC 162 Introduction to Personality Psychology
- PSC 165 Introduction to Clinical Psychology
- PSC 168 Abnormal Psychology

Core Group D: Developmental

Choose 4 units:

- HDE 100A Infancy & Early Childhood
- HDE 100B Middle Childhood & Adolescence
- PSC 140 Developmental Psychology
- PSC 141 Cognitive Development
- PSC 142 Social & Personality Development
- PSC 143 Infant Development
- PSC 146 The Development of Memory
- PSC 148 Developmental Disorders

Psychology Subtotal: 19-20

Approved Major Electives

Additional units to achieve a total of 20 units of approved upper division major coursework.

Any upper division Psychology (PSC) course(s). (https://catalog.ucdavis.edu/courses-subject-code/psc/)
