SPH 102 — Introduction to Human Epidemiology (4 units)
Course Description: Practice of epidemiology as it relates to human populations. Content is fundamental to the Public Health minor and a required core course.
Learning Activities: Lecture 2 hour(s), Discussion 2 hour(s).
Grade Mode: Letter.
General Education: Science & Engineering (SE).

SPH 103 — Introduction to Health Economics, Services, Policy, Administration & Management (3 units)
Course Description: American health care system and how public health leaders, administrators, and researchers can make effective contributions to the populations served.
Learning Activities: Lecture/Discussion 3 hour(s).
Enrollment Restriction(s): Pass One restricted to undergraduates in senior standing.
Grade Mode: Letter.
General Education: Social Sciences (SS); Quantitative Literacy (QL).

SPH 104 — Globalization & Health: Evidence & Policies (3 units)
Course Description: Provides an overview of the evidence on the multiple effects of globalization policies on health.
Learning Activities: Lecture 3 hour(s).
Grade Mode: Letter.
General Education: Social Sciences (SS); World Cultures (WC).

SPH 106 — Intermediate Human Epidemiology (4 units)
Course Description: Principles of epidemiological methods including causal inference, sources of bias such as confounding, effect measure modification, screening, and interpreting statistical tests of significance. Ethics and history of epidemiology.
Prerequisite(s): NUT 113 C or better or GDB 101 C or better or SPH 102 C or better.
Learning Activities: Lecture/Discussion 4 hour(s).
Grade Mode: Letter.
General Education: Science & Engineering (SE).

SPH 107V — Foundations of Epidemiology (4 units)
Course Description: Foundations of epidemiology. Distribution and determinants of disease and injury in populations. Practice of epidemiology as it relates to human populations. Relationship of epidemiology to public health.
Learning Activities: Web Virtual Lecture 2 hour(s), Web Electronic Discussion 2 hour(s).
Credit Limitation(s): Not open to students who took SPH 102 or equivalent course from their institution.
Grade Mode: Letter.
General Education: Science & Engineering (SE).

SPH 108 — Introduction to Program Planning & Evaluation (3 units)
Course Description: Appropriate techniques of community assessment, planning strategies, data collection, data analysis & evidence-based decision-making.
Learning Activities: Learning/Discussion 3 hour(s).
Grade Mode: Letter.
General Education: Science & Engineering (SE).
SPH 109 – History of Epidemiology in Public Health (2 units)
Course Description: Historic events in public health and the epidemiology that paved the way for disease control and prevention.
Learning Activities: Lecture/Discussion 2 hour(s).
Grade Mode: Letter.
General Education: Science & Engineering (SE); Domestic Diversity (DD).

SPH 113 – Health Disparities in the U.S. (3 units)
Course Description: Introduction to the principles and practice of health disparities research.
Learning Activities: Lecture 3 hour(s).
Grade Mode: Letter.
General Education: Social Sciences (SS); Domestic Diversity (DD).

SPH 120 – Introduction to Health Informatics (3 units)
Course Description: Introduction to concepts of health informatics and the impacts of the field on healthcare, research and public health.
Prerequisite(s): Upper division standing or consent of instructor.
Learning Activities: Lecture 3 hour(s).
Grade Mode: Letter.
General Education: Science & Engineering (SE).

SPH 121 – Health Informatics Systems (3 units)
Course Description: Health Informatics with a focus on Information Technology. Data gathering, manipulating, storing, retrieving, and classifying.
Prerequisite(s): Upper division standing or consent of instructor.
Learning Activities: Lecture 1.5 hour(s), Laboratory 1.5 hour(s), Project.
Grade Mode: Letter.
General Education: Science & Engineering (SE).

SPH 122 – Data Organization & Visualization in Health Informatics (3 units)
This version has ended; see updated course, below.
Course Description: Approaches to organizing and representing health data with a focus on visualization. Components of health data, visualization tools, methods and users for decision-making and analysis.
Prerequisite(s): Upper division standing or consent of instructor.
Learning Activities: Lecture/Discussion 1.5 hour(s), Laboratory 1.5 hour(s), Extensive Problem Solving, Term Paper.
Grade Mode: Letter.
General Education: Science & Engineering (SE). This course version is effective from, and including: Fall Quarter 2022.

SPH 122C - Data Organization & Visualization in Health Informatics (3 units)
Course Description: Approaches to organizing and representing health data with a focus on visualization. Components of health data, visualization tools, methods and users for decision-making and analysis.
Prerequisite(s): Upper division standing or consent of instructor.
Learning Activities: Lecture/Discussion 1.5 hour(s), Laboratory 1.5 hour(s), Extensive Problem Solving, Term Paper.
Grade Mode: Letter.
General Education: Science & Engineering (SE). This course version is effective from, and including: Fall Quarter 2022.

SPH 132 – Health Issues Confronting Asian Americans & Pacific Islanders (4 units)
Course Description: Health issues confronting Asian Americans & Pacific Islanders.
Learning Activities: Lecture/Discussion 4 hour(s).
Cross Listing: ASA 132.
Grade Mode: Letter.
General Education: Social Sciences (SS).

SPH 160 – General Health Education & Prevention (5 units)
Course Description: Topics include addiction, substance abuse/prevention, nutrition, stress management, physical fitness, body image, reproductive anatomy & physiology, contraceptive options, safer sex, sexual health, healthy relationships, and other general wellness/health promotion topics. Practice in peer counseling and outreach presentations.
Learning Activities: Lecture 4 hour(s), Discussion 1 hour(s).
Enrollment Restriction(s): Open to students in the internship program for the Health Education Program only; limited to 50 students.
Grade Mode: Pass/No Pass only.

SPH 161 – Campus Alcohol/Other Drug Abuse Prevention Program Peer Educator Training (4 units)
Course Description: Preparation for internship in campus and community substance abuse prevention and educational intervention. Addiction and other physiological responses to alcohol and other drugs. Harm-reduction strategies for individuals and target populations. Practice in peer counseling skills and outreach presentations to groups.
Prerequisite(s): SPH 160 (can be concurrent); and consent of instructor.
Learning Activities: Lecture/Discussion 3 hour(s), Practice 1 hour(s).
Grade Mode: Pass/No Pass only.

SPH 162 – Health Advocates Peer Educator Training (4 units)
Course Description: Preparation for internship in campus and community health promotion and risk reduction. Nutrition, stress management, physical fitness, body image and disordered eating, skin cancer prevention, and other general wellness/health promotion topics.
Prerequisite(s): SPH 160 (can be concurrent); and consent of instructor.
Learning Activities: Lecture/Discussion 3 hour(s), Practice 1 hour(s).
Grade Mode: Pass/No Pass only.

SPH 190 – Topics in Public Health (1 unit)
Course Description: Seminar on key issues and current topics in public health.
Prerequisite(s): Consent of instructor.
Learning Activities: Seminar 1 hour(s).
Enrollment Restriction(s): Pass one restricted to undergraduate seniors.
Repeat Credit: May be repeated.
Grade Mode: Pass/No Pass only.

SPH 190C – Research Conference in Community & International Health (1 unit)
Course Description: Weekly conference on research problems, progress, and techniques in Community and International Health. Critical discussion of recent journal articles.
Prerequisite(s): Consent of instructor.
Learning Activities: Discussion 1 hour(s).
Repeat Credit: May be repeated.
Grade Mode: Pass/No Pass only.

</tbody>
</table>
SPH 212 – Migration & Health (3 units)
Course Description: Principles of migration and health. Topics will include demographics, public health invention programs, health care delivery, occupational health, and effects of international migration on the health in communities of origin, transit and destination. Guest presentations by outside experts.
Prerequisite(s): Graduate standing.
Learning Activities: Lecture/Discussion 3 hour(s).
Grade Mode: Letter.

SPH 213 – Health Disparities in the U.S. (3 units)
Course Description: Introduction to the principles and practice of health disparities research.
Prerequisite(s): Consent of instructor.
Learning Activities: Lecture 3 hour(s).
Enrollment Restriction(s): Restricted to Public Health Ph.D. students.
Grade Mode: Letter.

SPH 214 – Scientific Proposal Writing (3 units)
Course Description: Concepts and writing of research proposals for agencies such as the NIH and NSF.
Prerequisite(s): Consent of instructor.
Learning Activities: Lecture/Discussion 2.5 hour(s), Term Paper.
Enrollment Restriction(s): Restricted to Graduate Students.
Grade Mode: Satisfactory/Unsatisfactory Only.

SPH 215 – GIS for Public Health (3 units)
Course Description: Concepts and components of a geographic information system (GIS) and essential skills of operating a functional GIS through the use of ArcGIS software package. Operational processes of spatial data acquisition, editing and QA/QC, metadata development, geodatabase design, spatial query and display, spatial analysis and modeling, preliminary GIS application development, cartographic mapping and dynamic visualization, and GIS implementation basics.
Learning Activities: Lecture 3 hour(s).
Grade Mode: Letter.

SPH 222 – Social & Behavioral Aspects of Public Health (3 units)
Course Description: Theories and strategies of health behavior change at the individual, group, community, and environmental levels. Examples include: transtheoretical model, social networks, and social marketing. Theories are applied to solve common public health problems (cancer, obesity, smoking, and HIV/AIDS).
Prerequisite(s): STA 102; STA 106; and consent of instructor; graduate standing.
Learning Activities: Lecture/Discussion 3 hour(s).
Grade Mode: Letter.

SPH 223 – Obesity Prevention in Community Settings (3 units)
Course Description: Look at causes of the obesity epidemic in the U.S.; identify and critically assess the research literature on various prevention strategies; understand, and apply evidence-based public health strategies to combat obesity; and translate the science to a general audience.
Prerequisite(s): Consent of instructor.
Learning Activities: Lecture/Discussion 3 hour(s).
Grade Mode: Letter.

SPH 232 – Health Communication (4 units)
Course Description: Health communication theories and research traditions. Topics include consumer health information seeking; physician-patient interaction; information, social marketing, “edutainment;” and media advocacy campaigns; social networks and coping; media influences on health; and new communication technologies in health promotion and healthcare delivery.
Prerequisite(s): Graduate standing or consent of instructor.
Learning Activities: Seminar 3 hour(s), Term Paper.
Cross Listing: CMN 232.
Grade Mode: Letter.

SPH 233 – Persuasive Technologies for Health (4 units)
Course Description: Theorizing, designing and evaluating ethical technology-based health communication interventions. Uses of social media, mobile communication apps, wearable devices, computer-generated tailored messages, educational games, and computational approaches in health promotion and healthcare delivery.
Learning Activities: Lecture/Discussion 3 hour(s), Term Paper.
Cross Listing: CMN 233.
Grade Mode: Letter.

SPH 235 – Health Communication Campaigns (4 units)
Course Description: Principles of health communication campaign planning, implementation and evaluation. Strategies for changing health behaviors, shaping policy, and improving healthcare organizations’ relations with stakeholders.
Prerequisite(s): Consent of instructor.
Learning Activities: Lecture/Discussion 3 hour(s), Term Paper.
Enrollment Restriction(s): Restricted to graduate students.
Cross Listing: CMN 235.
Grade Mode: Letter.

SPH 244 – Introduction to Medical Statistics (4 units)
Course Description: Introduction to statistical methods and software in clinical, laboratory and population medicine. Graphical and tabular presentation of data, probability, binomial, Poisson, normal, t-, F-, and Chi-square distributions, elementary nonparametric methods, simple linear regression and correlation, life tables.
Learning Activities: Lecture 4 hour(s).
Credit Limitation(s): Only 1 unit of credit for students who have completed STA 100 or MPM 402.
Cross Listing: CLH 244.
Grade Mode: Letter.

SPH 245 – Biostatistics for Biomedical Science (4 units)
Course Description: Analysis of data and design of experiments for laboratory data.
Prerequisite(s): CLH 244 or SPH 244; or an equivalent course and consent of instructor.
Learning Activities: Lecture 4 hour(s).
Cross Listing: CLH 245.
Grade Mode: Letter.
SPH 246 — Biostatistics for Clinical Research (4 units)
Course Description: Emphasizes critical biostatistics for clinical research and targets biomedical audience. Students will develop understanding for basic planning and analysis of clinical studies and learn to develop collaborations with biostatisticians.
Prerequisite(s): SPH 245 or CLH 245.
Learning Activities: Lecture 4 hour(s).
Repeat Credit: May be repeated.
Cross Listing: CLH 246.
Grade Mode: Letter.

SPH 247 — Statistical Analysis for Laboratory Data (4 units)
Course Description: Statistical methods for experimental design and analysis of laboratory data including gene expression arrays, RNA-Seq, and mass spec.
Prerequisite(s): CLH 245 or SPH 245.
Learning Activities: Lecture 4 hour(s).
Cross Listing: CLH 247.
Grade Mode: Letter.

SPH 252 — Social Epidemiology (2 units)
Course Description: Social determinants of health; psychosocial and physiological pathways; health and social inequality; gender and racial/ethnic disparities in health; social support, social cohesion and health; social gradient in behavioral risk factors; social ecological approaches to health intervention; interventions addressing social determinants.
Prerequisite(s): EPI 205A; and consent of instructor.
Learning Activities: Lecture/Discussion 2 hour(s).
Cross Listing: EPI 252.
Grade Mode: Letter.

SPH 255 — Human Reproductive Epidemiology (3 units)
Course Description: Human reproductive effects and risk of reproductive disorders, examined from macro- and micro-environmental exposures in community and occupational settings, epidemiologic study designs and analyses.
Prerequisite(s): MPM 405; MPM 406; PHY 220; PGG 222; or equivalents or consent of instructor.
Learning Activities: Lecture 3 hour(s).
Grade Mode: Letter.

SPH 262 — Principles of Environmental Health Science (3 units)
Course Description: Principles, approaches and issues related to environmental health. Recognizing, assessing, understanding and controlling the impact of people on their environment and the impact of the environment on the public.
Prerequisite(s): Consent of instructor.
Learning Activities: Lecture 3 hour(s).
Grade Mode: Letter.

SPH 264 — Public Health Econometrics (2 units)
Course Description: Principles of demand and supply; elasticity; benefits and costs; least squares regression; stepwise regression; economic and statistical significance; fixed and random effects; longitudinal data; nonlinear relations; continuous and binary variables; instrumental variables; attrition bias; tobit regression; Two-part cost model.
Prerequisite(s): Consent of instructor.
Learning Activities: Lecture/Discussion 2 hour(s).
Grade Mode: Satisfactory/Unsatisfactory only.

SPH 266 — Applied Analytic Epidemiology (3 units)
Course Description: Principles and applications in analysis of epidemiologic data. Methods of analyzing stratified and matched data, logistic regression for cohort and case-control studies, Poisson regression, survival-time methods.
Prerequisite(s): MPM 404; or consent of instructor.
Learning Activities: Lecture 2 hour(s), Laboratory 2 hour(s).
Cross Listing: PHR 266.
Grade Mode: Letter.

SPH 273 — Health Services Administration (3 units)
Course Description: Structure and function of public and private medical care. Topics include categories and trends in national medical spending, predictors of patient use, causes of death, managed care, HMOs, Medicare, Medicaid, costs of technology, and medical care in other countries.
Prerequisite(s): Consent of instructor.
Learning Activities: Lecture 3 hour(s).
Enrollment Restriction(s): Limited enrollment.
Grade Mode: Letter.

SPH 274 — Economic Evaluation in Health Care (3 units)
Course Description: Cost-effectiveness/cost-benefit analysis (CE/CBA) methods among various economic evaluation methods. CE/CBA is increasingly used to evaluate alternative choices in public health and clinical practice and to enlighten and inform health policy determinations.
Prerequisite(s): At least one semester of graduate level Statistics or consent of instructor.
Learning Activities: Lecture/Lab 3 hour(s).
Grade Mode: Letter.

SPH 276 — Critical Assessment in Health Policy & Economics (2 units)
Course Description: Aims to develop critical reading skills of the health policy and health economics literature, mainly following the microeconomic paradigm and analytical techniques. Some basic concepts of micro economic theory will be explained.
Learning Activities: Lecture/Discussion 2 hour(s).
Grade Mode: Letter.

SPH 277 — Net Benefit Regression (3 units)
Course Description: Uses regression methods for cost-effectiveness analysis. Focus on methods that create and explain economic information in person-level data.
Prerequisite(s): STA 100 or SPH 244 or MPM 202; or consent of instructor.
Graduate student standing.
Learning Activities: Lecture/Discussion 3 hour(s).
Enrollment Restriction(s): Open to graduate students only.
Grade Mode: Letter.

SPH 280 — Introduction to SAS Programming (3 units)
Course Description: Introduction to SAS, an integrated software system for data retrieval and management, data manipulation and programming.
Prerequisite(s): Introductory statistics course; e.g., MPM 402, STA 102.
Learning Activities: Lecture 2 hour(s), Discussion/Laboratory 1 hour(s).
Cross Listing: EPI 280.
Grade Mode: Letter.
SPH 281 — Data Management in SAS (1 unit)
Course Description: SAS programming for graduate students in the public health sciences or other fields who plan to use SAS software for data analysis.
Prerequisite(s): Consent of instructor.
Learning Activities: Discussion/Laboratory 1.50 hour(s).
Grade Mode: Satisfactory/Unsatisfactory only.

SPH 283 — Program Planning & Evaluation (3 units)
Course Description: Assessment of population needs, assets and capacities that affect communities’ health. Design and selection of methods for evaluating a population-based program.
Prerequisite(s): Consent of instructor.
Learning Activities: Lecture 3 hour(s), Discussion/Laboratory 2 hour(s).
Grade Mode: Letter.

SPH 290 — Topics in Public Health (1 unit)
Course Description: Key issues and current topics in public health. Begins in August summer session II. Must enroll in August, then Fall and Winter. Course is a series but grades and units are given at end of each quarter.
Prerequisite(s): Consent of instructor.
Learning Activities: Seminar 1 hour(s).
Enrollment Restriction(s): Restricted to Graduate Students.
Repeat Credit: May be repeated 10 time(s).
Grade Mode: Satisfactory/Unsatisfactory only.

SPH 291 — Public Health Sciences Doctoral Seminar (1 unit)
Course Description: Seminar to explore research on translational science and rural health; includes presentations of student research in progress.
Prerequisite(s): Consent of instructor.
Learning Activities: Seminar 1 hour(s).
Repeat Credit: May be repeated 6 time(s) when topic differs; with consent of instructor.
Grade Mode: Satisfactory/Unsatisfactory only.

SPH 292A — Public Health Translational Science Rotation (1-7 units)
Course Description: Public Health Translational Science Rotation for Ph.D. students in Public Health Sciences.
Prerequisite(s): Ph.D. student in Public Health Sciences or consent of instructor.
Learning Activities: Variable 1-7 hour(s).
Repeat Credit: May be repeated 8 unit(s) with consent of instructor.
Grade Mode: Satisfactory/Unsatisfactory only.

SPH 292B — Public Health Translational Science Rotation (1-7 units)
Course Description: Public Health Translational Science Rotation for Ph.D. students in Public Health Sciences.
Prerequisite(s): Consent of instructor.
Learning Activities: Variable 1-3 hour(s).
Enrollment Restriction(s): Open to Ph.D. students in Public Health Sciences.
Repeat Credit: May be repeated 8 unit(s) with consent of instructor.
Grade Mode: Satisfactory/Unsatisfactory only.

SPH 292C — Public Health Translational Science Rotation (1-6 units)
Course Description: Public Health Translational Science Rotation for Ph.D. students in Public Health Sciences.
Prerequisite(s): Consent of instructor.
Learning Activities: Variable 1-6 hour(s).
Repeat Credit: May be repeated 4 time(s).
Grade Mode: Satisfactory/Unsatisfactory only.

SPH 295 — International Health (2 units)
Course Description: Forum for learning health issues and health care systems in other countries. Topics include health care for refugees, the impact of political strife on health, the health care professional in international settings.
Prerequisite(s): Graduate standing or consent of instructor.
Learning Activities: Lecture/Discussion 2 hour(s).
Grade Mode: Satisfactory/Unsatisfactory only.

SPH 297 — Public Health Practicum (1-16 units)
Course Description: Practical fieldwork experience in public health. Placement site will vary based on the interest and experience of each student.
Prerequisite(s): Consent of instructor; open to Master of Public Health students.
Learning Activities: Variable 3-32 hour(s).
Repeat Credit: May be repeated 4 time(s).
Grade Mode: Satisfactory/Unsatisfactory only.

SPH 298 — Study in Community & International Health (1-5 units)
Course Description: Study and experience for graduate students in any number of areas in community and international health.
Prerequisite(s): Consent of instructor; graduate student in good academic standing.
Learning Activities: Variable 3-15 hour(s).
Grade Mode: Satisfactory/Unsatisfactory only.

SPH 299 — Research in Community & International Health (1-12 units)
Course Description: Work with faculty member in areas of research interest, including but not limited to injury control, international health, health policy, occupational and environmental health, health promotion and wellness, women’s health, and health demographics.
Prerequisite(s): Consent of instructor; graduate standing.
Learning Activities: Variable 3-36 hour(s).
Grade Mode: Satisfactory/Unsatisfactory only.

SPH 402 — Introductory Medical Spanish (2 units)
Course Description: The vocabulary needed to conduct a basic history and physical examination in Spanish.
Prerequisite(s): Medical student or consent of instructor.
Learning Activities: Lecture 2 hour(s).
Grade Mode: Honors/Pass/Fail.

SPH 461 — Clerkship in Community Health Group Practice (3-9 units)
Course Description: Overview of local community health in group practice situations. Students participate in treatment at several clinic sites in Yolo County. Topics include primary care, environmental health, maternal and child health, jail health, and preventive health care for the aged.
Prerequisite(s): Third-or fourth-year medical student.
Learning Activities: Clinical Activity.
Grade Mode: Satisfactory/Unsatisfactory only.
SPH 465 — Community Health Preceptorship (3-18 units)
Course Description: Participate at state or county health department or other public health organization in on-going investigations into current public health problems, e.g., birth defects, cancer control, diabetes, hypertension, injury control, infectious diseases, aging, Alzheimer’s disease, and smoking and tobacco use control.
Prerequisite(s): Consent of instructor; fourth-year medical student in good academic standing.
Learning Activities: Clinical Activity 5-40 hour(s).
Grade Mode: Honors/Pass/Fail.

SPH 466 — Occupational & Environmental Medicine Elective (6-12 units)
Course Description: Participate in activities of Occupational and Environmental Health Unit. Major activity is involvement in an epidemiologic research project of the University. Participate in Occupational and Environmental Medicine Clinic at UC Davis Medical Center and other sites, as arranged.
Prerequisite(s): Consent of instructor; fourth-year medical student in good academic standing.
Learning Activities: Clinical Activity, Laboratory, Variable 6-12 hour(s).
Grade Mode: Honors/Pass/Fail.

SPH 470 — Clinical Selective in Occupational & Environmental Medicine (3-6 units)
Course Description: Outpatient clinical experience in Occupational and Environmental Medicine at UCDMC and other sites, as arranged. Gain experience in evaluating occ/env medical conditions, use of medical literature resources, the worker’s compensation system, and toxicological principles.
Prerequisite(s): Consent of instructor; fourth-year medical student in good academic standing.
Learning Activities: Clinical Activity 9-18 hour(s).
Credit Limitation(s): Students may take up to four weeks for 6 units.
Grade Mode: Honors/Pass/Fail.

SPH 480 — Insights in Occupational & Environmental Medicine (1-3 units)
Course Description: Observe and participate in research and clinical activities in occupational and environmental medicine which include conferences, occupational and environmental medicine clinical activities and field visits. Develop and present small individual research projects.
Prerequisite(s): Consent of instructor; first- or second-year medical student in good academic standing.
Learning Activities: Clinical Activity 3-9 hour(s).
Grade Mode: Pass/Fail only.

SPH 485 — International Health (2 units)
Course Description: Forum for learning health issues and health care systems in other countries. Topics include health care for refugees, the impact of political strife on health, the health care professional in international settings.
Prerequisite(s): Consent of instructor; medical student in good academic standing.
Learning Activities: Lecture/Discussion 2 hour(s).
Grade Mode: Honors/Pass/Fail.
