**STATISTICS, DOCTOR OF PHILOSOPHY**

**College of Letters & Science**

Alexander Aue, Ph.D., Chairperson of the Program  
Jie Peng, Ph.D., Vice Chairperson for Graduate Affairs

**Graduate Study**

The Graduate Program in Statistics offers programs of study and research leading to M.S. and Ph.D. degrees. The M.S. gives students a strong foundation in the theory of statistics as well as substantial familiarity with the most widely used statistical methods. Facility in computer programming is essential for some of the course work. The supervised statistical consulting required of all M.S. students has proven to be a valuable educational experience. The Ph.D. program combines advanced course work in statistics and probability with the opportunity for in-depth concurrent study in an applied field. For detailed information contact the Chairperson of the Program or the Graduate Advisor.

Ph.D. Program Information (https://statistics.ucdavis.edu/grad/phd/)

**Preparation**

Preparation for the Ph.D. program requires a year of calculus, a course in linear algebra, facility with a programming language and upper division coursework in mathematics and/or statistics, and at least one semester/two quarters of advanced calculus.
